

# INFINITY SERIES PERFORMANCE TRAINER

## THE PERFORMANCE TRAINER IS A SINGLE COLUMN, HIGH- LOW PULLEY SYSTEM

It incorporates all the benefits of the Infinity Series. It is designed to be wall mounted or can be used as multiple units in our Infinity Series Six Pack configuration.

Many gyms mount the Performance Trainer units on walls and configure them into individual stations within cable training zones.

## KEISER PNEUMATIC RESISTANCE SYSTEM

With Keiser Pneumatic Technology, the muscles remain active and engaged throughout the entire range of motion and velocities, with reduced shock loading to muscles, connective tissues and joints, which allows for workout regimens that can safely improve physical performance in ways not seen with traditional strength training methods.
