

# KEISER RACKS POWER RACK

**THE POWER RACK WORKS BY INCORPORATING PNEUMATIC STRENGTH COLUMNS, WHICH CAN BE ATTACHED TO THE BAR, ALLOWING KEISER'S PATENTED AIR TECHNOLOGY TO BE USED SOLELY OR IN COMBINATION WITH FREE WEIGHTS**

This allows for a wide spectrum of training, enhancing power and stability for the athlete. Athletes who have trained on the POWER Rack have seen overall strength gains, better speed, control and explosive power. The POWER Rack is a favorite unit for professional sports teams. Our POWER Rack without Air is also available in these same specs.

## **KEISER PNEUMATIC RESISTANCE SYSTEM**

With Keiser Pneumatic Technology, the muscles remain active and engaged throughout the entire range of motion and velocities, with reduced shock loading to muscles, connective tissues and joints, which allows for workout regimens that can safely improve physical performance in ways not seen with traditional strength training methods.
