PUSHING THE LIMITS OF HUMAN PERFORMANCE

At Keiser, we're constantly innovating to reach the next level of human performance. We're never satisfied with the status quo. Even if it's our status quo. Because... Strong can be stronger. Fast can be faster. Power can be more powerful. Because science is on our side. **Because... 'Good Enough' Isn't.**

KEISER

KEISER CARDIO

SIMPLICITY IS THE ULTIMATE SOPHISTICATION. In 1996 Keiser set out to create a bike that would exceed the demands of Indoor Group Cycling Classes. The M3 Indoor Bike not only exceeded expectations, but changed Indoor Cycling Bikes forever by introducing many industry firsts including magnetic resistance, V-shaped frames and rear-flywheel design. All of our M Series Cardio Products are made to Keiser's exacting standards to give you the finest in quality, service and performance. In addition, Keiser Integrated Technology uses Bluetooth® connectivity to record and track progress using our M Series Apps.

CARDIO MACHINES M3i INDOOR BIKE

Model 5506

THE ADVANCING STANDARD

The M3i is the culmination of over a decade of refinement of the M3 and hundreds of changes, from mastering the flow of sweat around the bike and better corrosion resistance, to a power meter so accurate that it was the first Indoor Cycling Bike to pass the EN957-10 European Standard for accuracy and safety. But we didn't stop there. It wasn't good enough to have just one sample bike pass the test, we implemented a quality control and testing program to ensure that every bike we produce will pass the test. The M3i continues to raise the bar with the introduction of Keiser Integrated Technology and its ability to transmit to multiple Bluetooth® devices at once; transmitting your workout data to your cell phone or tablet at the same time it is sending the information to the class projection system and any other Bluetooth® device you want.

PUSHING PAST INDUSTRY LIMITS KEISER M SERIES BIKE PEDAL

With our game-changing bike pedal, Keiser has again revolutionized indoor cycling down to the last detail. New pedal features include:

- Stronger bearings tested for static and dynamic loads
- Cage integrated into pedal design, not just added on
- Ramped barbs for secure and simple foot placement
- Curvature eliminating pressure points on the rider's foot

KEISER INTERACTIVE CYCLING

KEISER IS TAKING INDOOR CYCLING TO THE NEXT LEVEL

ENHANCE YOUR RIDE & INSTRUCTION WITH FTP TRAINING AND MORE FROM KEISER'S INDOOR CYCLING APPS AND GROUP CLASS SYSTEM

M SERIES APP

With the free Keiser M Series app, indoor group cycling riders can easily track and log every detail of their rides on Keiser M3i bikes to see their progress.

M SERIES GROUP APP

With the free Keiser M Series group app, indoor group cycling class instructors can ignite competition to inspire riders and keep them coming back for more.

M SERIES INSTRUCTOR APP

Instructors can view all the Keiser M3i indoor bikes in a group cycling class in a single list, with options to sort and view live data.

COMPATIBLE INDIVIDUAL CYCLING APPS

INTRODUCING MULTI-APP COMPATIBILITY WITH THE M SERIES CONVERTER

Your indoor cycling workouts can now take on all new terrain. The M Series Converter with Bluetooth Smart wireless technology enables in-home riders to connect to the road virtually with cycling apps previously unavailable to indoor cycling bikes. Programming includes workout plans and road courses that mimic the intensity of outdoor riding.

The M Series Converter connects Keiser's M3i and M5i Bluetooth Smart technology into standard Power Profile data for use with apps designed for indoor trainers. This provides additional multi-level applications and exercise programs that mimic the feel and intensity of road cycling.
