

KEISER STRENGTH

A250 UPPER BACK

Model 2021

UPPER BODY MACHINES

V FOR VICTORY

Featuring two hand-grip positions to maximize the work on the muscles of the upper, middle, and sides of your back, it is this machine that contributes to the V-shape we admire in the human body. While this is a bilateral machine [both arms work together], it does offer variety for someone on a budget.

KEISER DYNAMIC VARIABLE RESISTANCE

Keiser's **Dynamic Variable Resistance** is designed to provide a smooth consistent Variable Resistance force curve at any training speed. Each machine has its own unique Variable Resistance curve designed and tuned perfectly for the muscles being used in that particular exercise. For users, this means that working out any speed, you'll always be training at maximum efficiency.
